ACKNOWLEDGEMENT TO THE PRELIMINARY AMENDMENT AND THE STATUS OF THE CLAIMS

The preliminary amendment filed 01/06/06 is acknowledged, entered and considered. In view of Applicant's request claims 4-11 have been amended. Claims 1-11 are now pending in the application.

SEQUENCE ELECTION REQUIREMENT

Claim 5 as drafted reads on patentably distinct Groups drawn to SEQ ID NOS:28, 29, 30 and 9, respectively. The sequences are patentably distinct because they are unrelated sequences and each unrelated sequence is considered a separate and distinct product, therefore, a further restriction is applied to each sequences. Further, there is no sequence linking each other, it is only consensus. For an elected invention drawn to either amino acid or polypeptide sequences, the Applicant must further elect a **single** amino acid or a **single** polypeptide sequence (See MPEP 803.04). In the instant case, which ever sequence Applicant elects in claim 5, claims 1-4 and 6-11 will be examined along the elected sequence. Due to the increasingly large size of sequence databases which must be searched and the increasing numbers of applications requiring sequence searches, it creates an undue burden on the Office to search more than a single sequence (product) per application. For these reasons, the requirements of 37 CFR 1.141 *et seq.* are no longer waived and Applicant is required to elect a **single** sequence for examination. Applicant is reminded that this is a **restriction requirement, not an election of species.**

Furthermore, a) Applicant's response should indicate the specific sequence that is elected. b) Applicant's response should indicate one specific peptide by SEQ ID NO to be examined even though the requirement is traversed (37 CFR 1.143). c) Applicant is to elect a single disclosed sequence, and/or provide a single subsequence within a disclosed sequence wherein the subsequence for the elected is searched.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

CONCLUSION AND FUTURE CORRESPONDANCE

Claim 5 is subject to sequence election requirement.
